

Dear Middle School families,

As we approach the reopening of school, and under current conditions, the Middle School team feels it in the best interest of the students to modify the school supply list. We ask when purchasing items that you consider “individual” use. We have attempted to reduce the list as each student will be assigned a Chromebook.

Each student should bring the following items on the first day of school:

A supply box/case that can be closed. This should be able to hold all of their items. (Example: A shoe size clear container with lid). Please be sure to label with your child’s name.

This container should include: pens/pencils, erasers, highlighter, white out, a glue stick, a pair of scissors, a pencil sharpener, an individual pack of tissues, a small pocket size hand sanitizer for individual use, an extra face mask, a scientific calculator, and headphones.

Headphones that are compatible with the school Chromebooks include Bluetooth headphones that are NOT Apple (no Air Pods) or a plug-in type headphone.

All items should be opened and placed in containers at home. Please have students bring the containers in on the first day of school.

Additionally, students will need an 11.5 inch Chromebook cover (hard shell protective cover)

In lieu of each class requiring notebooks, we ask that students bring one 2 inch binder filled with loose leaf paper and divided with 5 tabs. The exception will be for **Grade 6, 7 and 8 Science** which will still require a GREEN two subject notebook. Two pocket folders should be available for any class. Please ensure that these items come assembled and labeled with your student’s name.

Lunch bags will need to be disposable for the time being. A water bottle can be brought in and refilled at the newly installed water stations.

Our original request for supplies included items such as hand sanitizer and disinfectant wipes. We recognize the difficulty in obtaining these items, however, if you do have any extra, we are always appreciative of donations.

Thank you for your understanding regarding the revised list. Under the current COVID circumstances, we are working diligently to provide a safe and efficient workspace. We are excited to see all of our students in September.

The Middle School Team
